

Report of the discussion

Subject : Odoo Cooperative Federation of Food coop

Subject's holder : Vracoop, Sébastien previously about POS & scale with Odoo

Participants ? Akretion (Pierrick) / CoopItEasy (Vincent et Robin) /Coopdevs (Sergi et Dani) / Oufitcoops Liège (Sorya) / Hesbicoop region Liège Nathan)

Key Points of the discussion

The 3 maners to sell bulk products :

1. Self service scale that print sticker (Bizerba)
2. To weight directly to the cashier
3. To invoice an approximative 1kg pre-packed of products

To reinforce your zero waste approach : use also « deposit process »

How to share our different needs, code, etc.

Via OCA ? Via Food coop network ?

But a central question : Who maintain the version 9, 11, 12 ?

Conclusions :

- Migrate modules to v12 : Toledo, Bizerba, module to manage cooperative module
- Documentation od food coop module, use case, best practise
- OCA, Odooo days, other event Interkoop to share together
- Sharing community online : Discourse / Github / OCA : Mailing list
